

INTERNATIONAL FORUM OF NEUROSCIENCES

June 10 -12, 2019 at Brussels, Belgium

TENTATIVE SCIENTIFIC PROGRAM

Note: We pleased to inform you that we have few speaker slots left in our scientific program and final agenda will be ready on March 25th, 2019

Conference Chair: Dr. Julie, Richards

Email: neurosciences@fon2019.com

Website: <https://fon2019.com/>

1

Monday

Day-1 June 10, 2019

08:00-08:30	_____	Registrations
08:30-08:45	_____	Opening Ceremony
08:45-09:00	_____	Welcome Speech

KEYNOTE FORUM (09:00 - 11:00)

Keynote Title: Aging and cerebrovascular lesions in pure and in mixed neurodegenerative and vascular dementia brains

Jacques De Reuck, Director Of The Ghent Stroke Centre, Belgium

Keynote Title: Neuroscientific aesthetics: Obstacles and traps

Vladimir J. Konečni, University Of California, San Diego, USA

Keynote Title: Onchocerciasis (river blindness), an important cause of epilepsy in sub-Saharan Africa

Colebunders Robert, University of Antwerp, UA, Global Health Institute, Belgium

Keynote Title: Psychiatric, Neurological, Legal, and Public Health Challenges Facing Refugee Children: An Integrated Approach

John Thomas, Quinnipiac University Schools of Law and Medicine, USA

Keynote Title: Remodeling of lumbar motoneuron circuitry for locomotor recovery after spinal cord injury

Xu Xiao-Ming, Indiana University School of Medicine, USA

Group Photo

Keynote Title: Accurate detection of pathogenic de novo mutations in early infantile encephalopathy patients using whole-genome sequencing data

Gabor T. Marth, University of Utah, USA

Coffee & Refreshment Break @ Foyer

Title: Development of a TBI specific Health Related Quality of Life Assessment in children, adolescents and their proxies

Nicole von Steinbuechel, Institute of Medical Psychology and Medical Sociology, University Medicine Goettingen, Germany

1

Monday

Title: RNA sequencing solved the most common but unrecognized pathogenic variant in Japanese nemalin myopathy

Naomichi Matsumoto, Yokohama City University, Japan

Title: Effects of adolescent traumatic brain injury on the reward pathway and its impact on behavioral responses to drugs of abuse

Servio Ramirez, The Lewis Katz School of Medicine at Temple University, USA

Lunch Break 12:50 -13:50 @ Restaurant

Sessions (13:50 -17:00):

Neurosciences & Neurology

Title: An epigenetic signature of DNA methylation marks MECP2 regulatory network in brain cells and post-mortem brain tissues of Rett Syndrome patients

Mojgan Rastegar, University of Manitoba, Canada

Title: Brief low frequency electrical stimulation of injured neurons promotes peripheral nerve regeneration and functional recovery after immediate and delayed surgeries

Tessa Gordon, University of Toronto, Canada

Title: Learning Spiritual Behaviors as a Means to Reverse Harmful Epigenetic Changes resulting From Domestic Violence

Maysar Sarriddine, The Inner Space & The Lebanese American University (LAU), Lebanon

Title: The Effect of AoA-L2 on L1 and L2 Network Between Early and Late Bilinguals

Zhi Lu, Guangdong University of Foreign Studies, China

Title: Double Trouble: Clinical Management of Problematic Substance Use in Adolescent Youth

Krakower Scott I, Zucker School of Medicine at Hofstra/Northwell, USA

Title: A Randomized Double-Blind Controlled Trial of Arginine Vasopressin in Children with Autism

Antonio Hardan, Stanford University, USA

Title: The efficacy of mindfulness-based interventions on depressive symptoms and quality of life

Rebecca Hedrick, Cedars Sinai Medical Center, USA

Title: Effects of adolescent traumatic brain injury on the reward pathway and its impact on behavioral responses to drugs of abuse

Servio Ramirez, The Lewis Katz School of Medicine at Temple University, USA

Title: How mathematics can inspire a new way to look at the brain and the mind

Natalia B. Janson, Loughborough University, UK

Title Executive functioning in preschool children affected by autism spectrum disorder

Michele Roccella, University of Palermo, Italy

Title: Substance use risk assessment through mining social media data

Saeed Hassanpour, Dartmouth College, USA

2

Tuesday

Day 2 - June 11, 2019

Sessions on:

Psychiatry & Neuropsychiatry

Title: TAY violence risk assessment and management

Susan Parke, Yale University, USA

Title: Systems of care in TAY

Cynthia Wilson, Yale New Haven Hospital/ Yale University

Title: Developmentally Informed Psychiatric Care for Transitional Age Youth (TAY) with Serious Mental Illness (SMI)

Kim Hyun Jung, Harvard Medical School, USA

Title: Foster care youths with mental illness and their challenges transitioning to adulthood

Timothy VanDeusen, Yale University School of Medicine, USA

Title: Childhood-Onset Psychoses: Insights from Neuroimaging studies

Gogtay Nitin, Director, Office of Clinical Research NIMH/NIH

Title: Anti-NMDA Receptor Encephalitis Presenting as Psychiatric Disorders in Adults and Children

Ronald Gurrera, VA Boston Healthcare System/Harvard University School of Medicine, USA

Title: YCare: A multidisciplinary caregiving skills and protocol for youth caregivers in families with ALS

Melinda Kavanaugh, University of Wisconsin- Milwaukee, USA

Title: Case Report: High Dose Antibiotics as Conservative Management of Multiple Pyogenic Brain Abscesses from a Rare Hematogenous Spread

Avneet, Panjab University, India

Title: Observation of the Effect of Interactive Scalp Acupuncture in Treating Autism Spectrum Disorder

Zhen-Huan L, University of Chinese Medicine, China

Title: The Early Traumatic Experiences And The Relationship With The Emerge Of Depressive Symptoms In Adulthood

Egla Dervishi, University of Tirana, Albania

Title: Whole brain versus targeted dentate gyrus irradiation model to explain low to moderate doses of exposure effects in mice

DURAND Christelle, France

Title: Amyloid precursor protein (APP) upregulation of JNK3 expression contributes to cell death after nerve injury

Gavin Dawe, National University of Singapore, Singapore

Title: Potential Therapeutic of the Adiponectin Receptors As Antidepressants

Joelle CHABRY, IPMC CNRS UMR7275, France

2

Tuesday

Title: Role of the neurotoxic lesion of the pedunculo-pontine nucleus as an approach to a pre-symptomatic experimental model of Parkinson's disease

Lisette Blanco-Lezcano, Cuba

Title: Risk Factors of Cerebro-vascular Accidents in the Gaza Strip: Case-Control Study

Mahmoud Alabsi, Israel

Title: Autism symptoms comparison between current and past behavior through autism diagnostic interview revised (ADI-R)

Jorge Gabriel Chavez Dozal

Title: Lestaurtinib (CEP-701) modulates the effects of early life hypoxic seizures on cognitive and emotional behaviors in immature rats

Makram Obeid, Lebanon

Title: Intention in autism

Cristina Becchio, Istituto Italiano di Tecnologia, Italy

Title: Cyberbullying and psychiatric disorders in Mexican adolescents

Víctor Manuel Noguera Navas, USA

Title: Systemic Inflammation and Long-Term Cognition

Catherine Widmann, University Hospital Bonn, Germany

Poster Presentations on June 11, 2019 (14:00 -17:00)

Title: Screening Mental Health in Children of Latino Parents at a Primary Care Office

Matt Bojanowski, Jackson Memorial Hospital, USA

Title: Role of the neurotoxic lesion of the pedunculo-pontine nucleus as an approach to a pre-symptomatic experimental model of Parkinson's disease.

Ian Martins, Edith Cowan University, Australia

Title: Decompressive Craniectomy with Lattice Duraplasty: A Study on Intracranial Pressure and Imaging Features

Dongxia Feng, Baylor Scott & White Medical Center, USA

Title: Insulin-like growth factor 1 as a predictor of a favorable outcome of peripheral nerve lesions

Albert Bulatov, Military medical academy of S.M. Kirov, Russia

Title: Continuing support for neurodevelopmental disabilities: what shape does awareness, advocacy and services look like in developing nations

Anna Lamikanra, Nigeria

Title: Effect of modulating glutamate signaling on myelination in a zebrafish model

Funda Turan, Germany

Conference Venue:

Bedford Hotel & Congrss Centre Rue du

Midi 135, 1000

Bruxelles, Belgium

Website: <https://www.hotelbedford.be/>

Venue Information: Hotel Bedford is only 450 metres away from the Grand Place and is located nearby the Royal Palace, famous museums and the main shopping area. Book you stay at our hotel so you can easily access all of the hotspots!
